

ARTISTIC FILE  
CLAUDE LESSARD

Born in Montreal, in Canada in 1957.

Self-educated painter since 1973, but full-time since 2007, he ends his Baccalaureate in environmental geology in UQAM in 1981.

Its belonging in the earth sciences instills into him a desire to scan the world to its source. So guided and questioned by a pictorial language of his own, he is officially connected therefore to painting.

MEDIUM

Mixed media on canvas or lauan (panels of recycled wood and cinéma decors), acrylic, oil or recycled industrial painting.

Incorporate minerals, sand, crystals, copper, enamels and some human DNA at time.
